Art Unit: 1763

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 15-32 and 40, drawn to a PLD apparatus having a confinement magnet device and a deflection magnet device positioned to deflect material discharged from the confinement magnet device, classified in class 118, subclass 723FI.
- II. Claims 33-39, drawn to a PLD apparatus having a deflection magnet member provided with a laser access port, classified in class 118, subclass 723FI.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different modes of operation. Invention I requires a confinement magnet device positioned proximate the target, with a deflection magnet device positioned downstream of the confinement magnet device and farther from the target, while invention II does not. Invention II requires a deflection magnet member having a bore sufficient to accommodate the target therein and also a laser beam port for directing a laser to the target, while invention I does not. Thus, two-way distinctness exists between inventions I and II, and restriction between the two is proper.

Art Unit: 1763

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Richard Bueker whose telephone number is (703) 308-1895. The examiner can normally be reached on 9 AM - 5:30 PM, Monday-Friday.
